

**water-based anti-adhesive agent
for protection of plant and vehicles
against concrete overspray**

Advantages

Repel® 52 is water-based –

not combustible

mild odour – no diesel smell

not a DG

low skin and eye irritation

Repel® 52 protects metal, plywood and plastics –

protects paints and plastics without softening or swelling

Application and Preparation

Repel® 52 is easy to apply –

by spray, brush or cotton cloth

similar viscosity summer and winter

stable indefinitely when undiluted

may be diluted with low-salts* water

coverage 6 – 20m² per litre depending on application

users should experiment to find the optimal film thickness to give reliable release with little or no curtaining or residues and no build-up on repeated applications

application as a very fine spray coating is preferred

Preparation of surfaces –

Surfaces contaminated with petroleum or vegetable oil should be well cleaned before applying. Wash down with hair shampoo or good detergent in water, then rinse well.

Wash waters containing Repel® 52 may be reused in concrete mixtures.

****Low-salts water means water with no more than 80 parts per million of total dissolved salts. 80ppm = 80 mg/litre***
